

Summer Term 1

English and Maths overview

Maths

We will be following the White Rose Maths scheme.

Year 2

- Fractions
- Problem solving and reasoning (using and applying knowledge of the four operations: addition, subtraction, multiplication and division).

Year 1

- Fractions
- Place value (within 50)
- Addition and subtraction (within 20)

English (Years 1 & 2)

Fiction

Caterpillar, caterpillar by Vivian French

Superworm by Julia Donaldson and Axel Scheffler

Our topic for this term is Minibeasts. The children will have a variety of writing opportunities. We will be focusing upon balancing our letters on the line, using capital letters and finger spaces consistently and using the right punctuation to finish our sentences. Year 2 pupils will be encouraged to use a range of adjectives to describe people, places and objects and a range of conjunctions to link the ideas in their sentences.

Non-fiction

Incredible Insects by Claire Llewellyn.

We will be using this text as the basis of our non-fiction work. We will learn the stages in the life cycle of a ladybird and compare and contrast this with the life cycle of a butterfly. We will discover which creatures belong in which insect family and why and focus on the features that they have in common.
